

TSSWCB POLICY FOR O&M ALLOCATIONS

January 17, 2019

- Funding for O&M will be allocated based on proposals submitted by SWCDs.
- After funding is authorized and a Purchase Order is issued to the SWCD, the work must be completed within 90 days.
- Proposals may be submitted one at a time (not as a group) not to exceed the SWCD's total number of proposals listed below.
- Each SWCD will be allowed to submit a number of proposals based on the number of dams the SWCD is responsible for as follows:
 - SWCDs with 200 or more dams: 5 proposals
 - SWCDs with 80 to 199 dams: 4 proposals
 - SWCDs with 25 to 79 dams: 3 proposals
 - SWCDs with less than 25 dams: 2 proposals
- The maximum amount of each proposal cannot exceed \$20,000, unless the proposal is for only one dam. In that case the maximum dollar amount for that proposal (one dam) shall be as follows:
 - SWCDs allowed 5 proposals: \$100,000
 - SWCDs allowed 4 proposals: \$80,000
 - SWCDs allowed 3 proposals: \$60,000
 - SWCDs allowed 2 proposals: \$40,000
 - The maximum amounts for a proposal with one dam shown above shall also be the maximum amount allowed for the total of all proposals submitted by each SWCD
- SWCDs with funded proposals may submit another proposal requesting funds for additional work, after work on any funded proposal is 75% complete.
- Requests for waivers of the above policy, with appropriate documentation and justification, will be considered on a case by case basis
